

Silver Spring is Bike Friendly

It's no small wonder why thousands of people visit, live, and work in downtown Silver Spring. Getting here is easy... particularly when using Silver Spring's designated bikeways for cycling or walking. And when they get here, cyclists and walkers find green spaces with rest areas and benches, friendly intersections, streets, and sidewalks, vibrant business and shopping areas, and secure bicycle parking.

These signs are used to designate the official routes highlighted on this map. Look for even more official routes to be designated in the coming years.

Silver Spring Bikeways

- Off-road bikeways** - Also known as shared use paths, these routes are physically separated from vehicular traffic by an open space or barrier. Pedestrians, skaters, wheelchair users, joggers and other non-motorized users may also use these paths.
- On-road bikeways** - A roadway designated for use by both bicycles and motor vehicles.
- Connector Trails** - Three major bicycle and pedestrian routes converge in downtown Silver Spring – the Silver Spring Green Trail, Georgetown Branch (the future Capital Crescent Trail) and East-West Highway Trail. Refer to the regional map for an orientation.

Street-Smart Cyclist

Commuter's Checklist:

- Bright Clothing
- Helmet
- Lights
- Fenders
- Hydration
- Tools, pump, patch kit ...and a smile

A bike riders creed -

Good luck favors those who are prepared!

An approved bicycle helmet can greatly reduce the risk of death or permanent injury. Look for the CPSC or Snell Memorial Foundation Standard sticker. By Montgomery County law, cyclists under the age of 18 are required to wear a helmet.

- The helmet should rest snug and flat on top of the head, not too far forward or backward.
- Once the helmet straps are snapped together, there should be enough room to fit one finger between chin and strap.
- The straps should be snug but not too tight and should form a "V" under the ears.

Visit the Commuter Express Transit Store (8401 Colesville Road, Suite 150) and explore your options.

BIKES RIDE FOR FREE

on Public Transportation

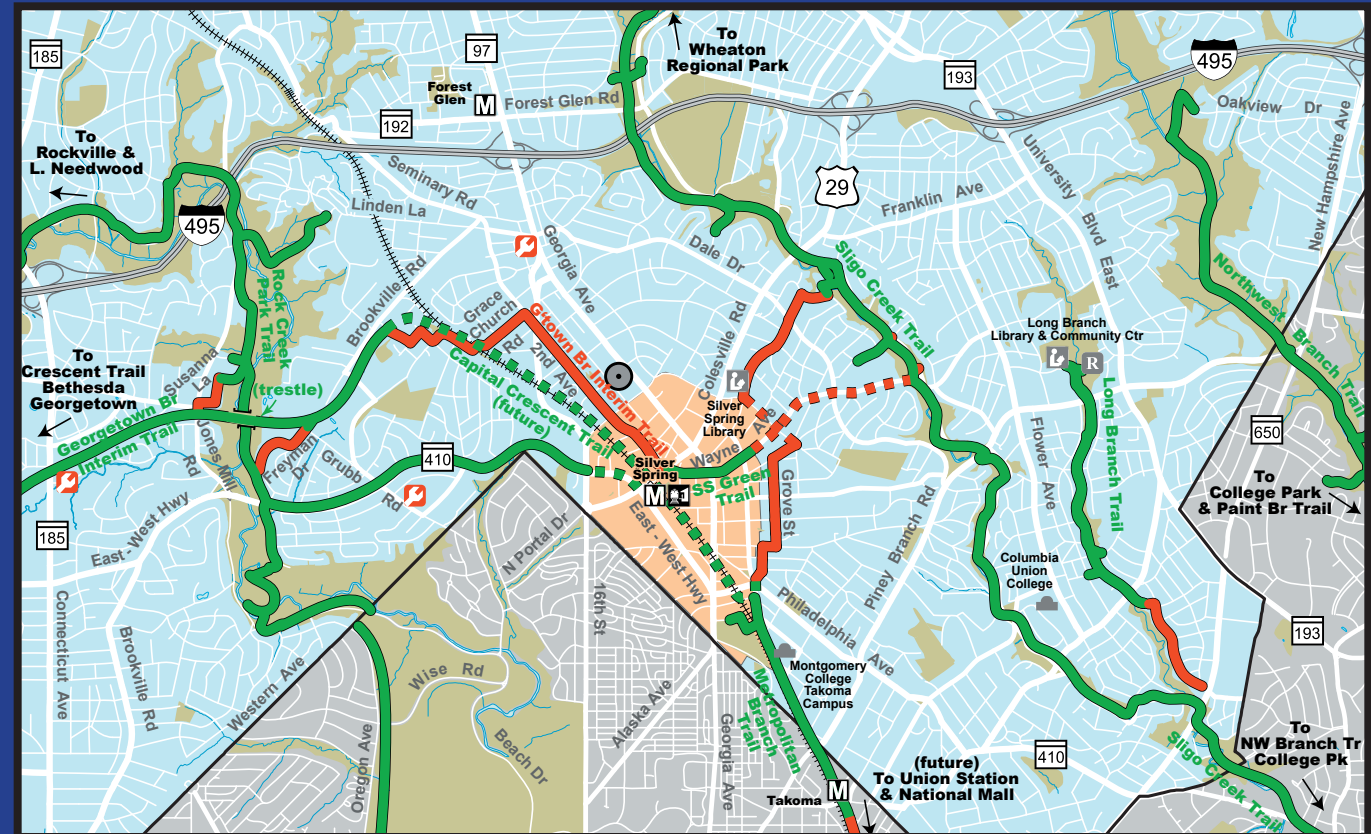

Montgomery County Ride On, Metro buses, and the VanGo downtown circulator are all equipped with bike racks! Each rack holds two bikes and supports most wheel and frame sizes- even kids' bikes. Visit www.montgomerycountymd.gov/rideon for details.

Bikes are permitted on Metrorail at most times during the week (excluding rush hours and select dates) and all day Saturday and Sunday. Visit www.metroopensdoors.com for details.

Most Metrorail stations have free bike racks and rental lockers.

Silver Spring Regional Map

Add a Little Exercise to your Commute – Try Biking or Walking to Work!

Biking and walking to work are healthy ways to make your daily commute. That's why the Silver Spring Transportation Management District encourages the use of transit and other commuting options and provides free consulting services to employers to help them establish commuting benefits for their employees.

Let the Silver Spring TMD show you or your employees how to beat the traffic, save time, and reduce expenses – all while being kind to the environment. Call (301)770-POOL (7665) or visit www.montgomerycountymd.gov/commute. Or, stop by the Commuter Express Transit Store (located at 8401 Colesville Road, Suite 150, 7 a.m. to 5 p.m. M-F) for information, maps and schedules, or to purchase transit passes and tokens. Their services are FREE! Silver Spring TMD is operated by Montgomery County Commuter Services.

- Amenities for bikers
- Public transportation options
- Safety tips, rules of the road, and other helpful resources

July 2005

This bicycle map has been created to aid cyclists and pedestrians in planning both recreational and commuter trips in Silver Spring, Maryland. Bicyclists have the same responsibility as motor vehicle operators to obey traffic laws. All bicyclists should be aware that conditions on streets and trails may vary greatly. Please be prepared to make your own evaluation of the conditions of the roadway or trail on which you are riding. Plan your route appropriate to your riding ability. The user of this map bears full responsibility for his or her own safety. Information contained within this map was accurate as of the printing date (2005).
